Spending Reduction Act of 2011
January 2011

The Spending Reduction Act of 2011 reduces federal spending by $2.5 trillion over ten years. The bill will specifically hold FY 2011 non-security discretionary spending to FY 08 levels, hold non-defense discretionary spending to FY 06 levels thereafter for the rest of the ten-year budget window (the same level as in effect during the last year of GOP control of the Congress), and include more than 100 other program eliminations or savings proposals, consisting of proposals from the RSC Sunset Caucus, YouCut, or past RSC budgets. Overview
- **FY 2011 CR Amendment:** Replace the spending levels in the FY 2011 continuing resolution (CR) with non-defense, non-homeland security, non-veterans spending at FY 2008 levels. The legislation will further prohibit any FY 2011 funding from being used to carry out any provision of the Democrat government takeover of health care, or to defend the health care law against any lawsuit challenging any provision of the act. **$80 billion savings.**
- **Discretionary Spending Limit, FY 2012-2021:** Eliminate automatic increases for inflation from CBO baseline projections for future discretionary appropriations. Further, impose discretionary spending limits through 2021 at 2006 levels on the non-defense portion of the discretionary budget. **$2.29 trillion savings over ten years.**
- **Federal Workforce Reforms:** Eliminate automatic pay increases for civilian federal workers for five years. Additionally, cut the civilian workforce by a total of 15 percent through attrition. Allow the hiring of only one new worker for every two workers who leave federal employment until the reduction target has been met. **(Savings included in above discretionary savings figure).**
